

Thank you for reading our very first edition of the Window Coverings Newsletter!

In 2009, Window Interiors will celebrate our 20th Anniversary of providing quality, creative Window Covering solutions. Throughout the next year, we will reflect upon our accomplishments and look back on the special projects and our long-standing clients. We will update you about the future of innovative products that have made Window Interiors the experts in state-of-the-art shades systems, custom blinds and solar film solutions.

Throughout the past twenty years, Window Interiors has made it a priority to give back to our community. We contribute to numerous local and national charitable organizations. We will continue this commitment in the years ahead as our way of saying thank you for our success and prosperity.

We wish you a year of Peace and Joy in 2009.

Sandi Saft,
President

Future Coverings ...

- WI Completes Florida Hospital Ginsburg Tower project
- Energy and Cost Savings Benefits of Solar Shades

AND ... WI 20 Years!!! Highlights in Upcoming issues!

Window Interiors Wins Top Honors for The Vue at Lake Eola!

In a ceremony on October 4th, Window Interiors was awarded an Eagle Award, the highest honor by the Association of Builders and Contractors for custom window treatments provided to the \$100 million condominium project, The Vue @ Lake Eola.

The annual awards ceremony honors its members from a selection of the most outstanding projects built by Central Florida ABC Members. With general contractor, Turner Construction, Window Interiors installed custom window treatments for the lobby and seventh floor amenity deck.

This 35-story building, with its ultra modern architecture is set in the exciting urban core of Downtown Orlando. The project scope provided motorized solar shades for the

lounge, cyber café, health and fitness center as well as customized draperies in the lobby.

The solar shades and custom draperies not only enhanced the modern design of the building, they provide beauty, comfort and energy efficiency. The team of Kelly Garcia, Project Manager and Travis McGowan, Installer, worked diligently to provide this landmark building with custom window treatments on-time and ahead of schedule. ■

The winning team!

Team members not photographed John Cucura, Travis McGowan and Brian De Geus.

Photography by Jim Hobart with MacBeth Aerial Photography, Inc.

The location of Window Interiors holiday photograph was taken at Orlando Utilities Commission's new, OUC Building @ Reliable Center in Downtown Orlando. The Orlando Utilities Commission Building is the only commercial building downtown to be constructed with a LEED Gold certification forthcoming. Window Interiors provided custom solar shades for the seventh-floor as well as recyclable blinds throughout this state-of-the-art building. Window Interiors would like to thank Skanska Construction, Inc. and OUC for allowing us to be a part of this project.
